Entellus Medical® Names Brian E. Farley to Board

MINNEAPOLIS – (November 11, 2008) – Entellus Medical, a Minnesota-based medical technology company, today announced that it has named Brian E. Farley to its Board of Directors. Farley is president and CEO of VNUS® Medical Technologies based in San Jose, Calif. He will serve as an independent board member on the Entellus Medical Board of Directors.

“Brian brings valuable experience to Entellus, particularly in early commercialization,” said Tom Ressemann, president and CEO of Entellus Medical. “He is a proven leader in this industry with early stage and established medical device companies, and brings a broad range of expertise in research and development, reimbursement, marketing and sales, which will greatly benefit our organization.”

“I am very pleased to have the opportunity to contribute to the continued success of Entellus Medical,” said Farley. “This is an organization that has tremendous growth opportunity in a clinical segment that seeks innovative technology to improve patient care.”

Farley joined VNUS Medical Technologies as general manager and was the company’s first employee. VNUS Medical Technologies, founded in 1995, is a public company and world leader in the development and commercialization of products for minimally invasive treatment of venous disease. Farley has served as a member of the Board of Directors and as president and Chief Executive Officer since January 1996. Prior to January 1996, Farley held management and executive positions in research and development, clinical research and business development for Guidant Corporation, and in the medical device division of Eli Lilly & Company.

He holds a B.S. in Engineering with an emphasis in Biomedical Engineering and an M.S. in Electrical Engineering from Purdue University. Farley is also a member of the American College of Phlebology Foundation Board of Directors.

About Entellus Medical:

Founded in 2006, Entellus Medical is focused on providing unique solutions to address the unmet needs of ENT (ear, nose, and throat) physicians, their patients, and payers through the development of innovative device technology and treatment. Based in Maple Grove, Minn., Entellus Medical recently introduced FinESS™ Sinus Treatment, a simple and direct approach to effectively treat patients with chronic sinusitis. For more information about Entellus Medical and FinESS Sinus Treatment, please contact us at 763/463-1595 or www.entellusmedical.com.
